Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-4, 9, 14 and 17 are rejected under 35 U.S.C. 102(e) as being anticipated by Swartzendruber et al. 6,837,032.

Swartzendruber discloses an apparatus for adjusting the height of a mowing deck comprising:

- A foot actuatable lever (28, 31) pivotally connected to the frame (36) of the mower near the operator seating area
- A movable arm (90) having a first end pivotally connected to the lever (28, 31) and a second end operably connected to the deck lift system or rear rotating assembly
- A shoulder (at 90) on the arm (90) between the first and second ends and near the operator seating area, the shoulder connecting to and extending normal to the arm (90)
- A handle rotatable cam wheel (118) rotationally connected to the frame (36) having an outer edge of varying radius wherein the shoulder (at 90) contacts a portion of the outer edge when the lever (28, 31) is in a first position, the shoulder

Art Unit: 3671

(at 90) is spaced from the outer edge when the lever (28, 31) is in a second position, and wherein the mowing deck height is a function of the radius of the cam (18) outer edge in contact with the shoulder (at 90)

- A means (112, 114) for locking the cam (118) at a selected position.

The method of adjusting the deck height as per claims 9-13 are inherent in the apparatus disclosed by Swartzendruber.

Allowable Subject Matter

Claims 5-8 and 10-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3671

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
